

{identity print web}
CURRICULUM VITAE
FREELANCE DESIGNER | LONDON

IMAGINATION IS MORE IMPORTANT THAN KNOWLEDGE

Albert Einstein

INTRO

My background is in identity, print and web, which I have worked on, for over 12 years.

In 1998 I set up my own design agency in France, Coast Creation which I ran for 5 years.

Today I principally create graphic, web and branding work for my own private clients.

Exchanging ideas and experiences and working together, tailoring each project to the clients needs and objectives, to create designs that translate and communicate your brand and message. I am always keen of accepting highly challenging projects to work on, whilst being very rigorous and disciplined in managing them.
